---

---

The Islamic Republic of Iran took all necessary technical steps in its accession process. Having done all the required tasks and also demonstrating our government's seriousness and readiness in the accession process, this is our high and reasonable expectation to see that the WTO and its distinguished members reinforce the consultations leading to a tangible output. We do hope that the designation of the Working party Chair and convening its first working group session at the earliest convenient time would be realized. In this context, we count on the cooperation and support of all WTO Members in this complicated process, in a way that the non-economic factors will not adversely affect the accession of countries.
