

LAO PEOPLE'S DEMEO

4. Food displaying misleading labels or attempting to mislead the buyers on its quality, nutritional value or other special features or on the site or country of production.
5. Food produced with non-conforming quality or standard as specified by the International Food Code (lack or excess of components with minimum nutritional value differing from the specified quality and standard, making the product dangerous for the consumers).

Foodstuff non-conform to the standard is:

- Foodstuff non-conforming to the specified quality or standard.
- Consumption of unsafe food.
- Foodstuff without utility and suspicious.
- Inappropriate level of value or utility for the body.
