

WORLD TW

Consequently, we would like to reiterate the validity of the resolutions adopted at the Third United Nations Conference on the Least-Developed Countries in Brussels, and of the Zanzibar and Abuja Declarations, which aim to find fair and equitable solutions to help those countries still marginalized by the system to realize their greatest ambitions.

Thus, we urge all nations, especially the developed countries, to provide more effective support in the implementation of the resolutions and decisions taken in the various international forums, including those agreed upon in the Final Act of the Uruguay Round (special and differential treatment, duty- and quota-free market access), most importantly, by offering systematic and continuous technical assistance and institutional and human capacity-building, so as to revive the economic, commercial and social conditions in our countries.
