Marketing of agricultural products not listed in supporting table 8  
Total support is estimated using the difference between market interest rate and farmer's borrowing rate

Three sources of Income Tax forgone were estimated:  
1 - farmers were allowed to deduct investment expenditures up to 80% of their net profits.  
2 - Farmers received a wave on the rate of Income Tax up to 29%  
3 - No Income Tax was charged on 6% of the increasing value of forests formed by farmers
