

**WORLD TRADE
ORGANIZATION**

WT/L/579
2 August 2004

(04-3297)

financed technical assistance and capacity building programmes can play in the economic development of these countries.

Special and Differential Treatment: the General Council reaffirms that provisions for special and differential (S&D) treatment are an integral part of the WTO Agreements. The Council recalls Ministers' decision in Doha to review all S&D treatment provisions with a view to strengthening them and making them more precise, effective and operational. The Council recognizes the progress that has been made so far. The Council instructs the Committee on Trade and Development in Special Session to expeditiously complete the review of all the outstanding Agreement-specific proposals and report to the General Council, with clear recommendations for a decision, by

Least-Developed Countries: the General Council reaffirms the commitments made at Doha concerning least-developed countries and renews its determination to fulfil these commitments. Members will continue to take due account of the concerns of least-developed countries in the negotiations. The Council confirms that nothing in this Decision shall detract in any way from the special provisions agreed by Members in respect of these countries.

e. Services: the General Council takes note of the report to the TNC by the Special Session of the Council for Trade in Services¹ and reaffirms Members' commitment to progress in this area of the negotiations in line with the Doha mandate. The Council adopts the recommendations agreed by the Special Session, set out in Annex C to this document, on the basis of which further progress in the services negotiations will be pursued. Revised offers should be tabled by May 2005.

f. Other negotiating bodies:

Rules, Trade & Environment and TRIPS: the General Council takes note of the reports to the TNC by the Negotiating Group on Rules and by the Special Sessions of the Committee on Trade and Environment and the TRIPS Council.² The Council reaffirms Members' commitment to progress in all of these areas of the negotiations in line with the Doha mandates.

Dispute Settlement: the General Council takes note of the report to the TNC by the Special Session of the Dispute Settlement Body³ and reaffirms Members' commitment to progress in this area of the negotiations in line with the Doha mandate. The Council adopts the TNC's recommendation that work in the Special Session should continue on the basis set out by the Chairman of that body in his report to the TNC.

g. Trade Facilitation: taking note of the work done on trade facilitation by the Council for Trade in Goods under the mandate in paragraph 27 of the Doha Ministerial Declaration and the work carried out under the auspices of the General Council both prior to the Fifth Ministerial Conference and after its conclusion, the General Council decides by explicit consensus to commence negotiations on the basis of the modalities set out in Annex D to this document.

Relationship between Trade and Investment, In75 7 Tw 5 by then T 3 0 030 TD -0.0808 3c 0.8988646v

- Each such Member will make a substantial reduction in the overall level of its trade-distorting support from bound levels.
- As well as this overall commitment, Final Bound Total AMS and permitted *de minimis* levels will be subject to substantial reductions and, in the case of the Blue Box, will be capped as specified in paragraph 15 in order to ensure results that are coherent with the long-term reform objective. Any clarification or development of rules and conditions to govern trade distorting support will take this into account.

Overall Reduction: A Tiered Formula

7. The overall base level of all trade-distorting domestic support, as measured by the Final Bound Total AMS plus permitted *de minimis* level and the level agreed in paragraph 8 below for Blue Box payments, will be reduced according to a tiered formula. Under this formula, Members having higher levels of trade-distorting domestic support will make greater overall reductions in order to achieve a harmonizing result. As the first instalment of the overall cut, in the first year and throughout the implementation period, the sum of all trade-distorting support will not exceed 80 per cent of the sum of Final Bound Total AMS plus permitted *de minimis* plus the Blue Box at the level determined in paragraph 15.

8. The following parameters will guide the further negotiation of this tiered formula:

- This commitment will apply as a minimum overall commitment. It will not be applied as a ceiling on reductions of overall trade-distorting domestic support, should the separate and complementary formulae to be developed for Total AMS, *de minimis* and Blue Box payments imply, when taken together, a deeper cut in overall trade-distorting domestic support for an individual Member.
- The base for measuring the Blue Box component will be the higher of existing Blue Box payments during a recent representative period to be agreed and the cap established in paragraph 15 below.

Final Bound Total AMS: A Tiered Formula

9. To achieve reductions with a harmonizing effect:

- Final Bound Total AMS will be reduced substantially, using a tiered approach.
- Members having higher Total AMS will make greater reductions.
- To prevent circumvention of the objective of the Agreement through transfers of unchanged domestic support between different support categories, product-specific AMSs will be capped at their respective average levels according to a methodology to be agreed.
- Substantial reductions in Final Bound Total AMS will result in reductions of some product-specific support.

10. Members may make greater than formula reductions in order to achieve the required level of cut in overall trade-distorting domestic support.

De Minimis

11. Reductions in *de minimis* will be negotiated taking into account the principle of special and differential treatment. Developing countries that allocate almost all *de minimis* support for subsistence and resource-poor farmers will be exempt.

12. Members may make greater than formula reductions in order to achieve the required level of cut in overall trade-distorting domestic support.

Blue Box

13. Members recognize the role of the Blue Box in promoting agricultural reforms. In this light, Article 6.5 will be reviewed so that Members may have recourse to the following measures:

- Direct payments under production-limiting programmes if:
 - such payments are based on fixed and unchanging areas and yields; or
 - such payments are made on 85% or less of a fixed and unchanging base level of production; or
 - livestock payments are made on a fixed and unchanging number of head.

Or

- Direct payments that do not require production if:
 - such payments are based on fixed and unchanging bases and yields; or
 - livestock payments made on a fixed and unchanging number of head; and
 - such payments are made on 85% or less of a fixed and unchanging base level of production.

14. The above criteria, along with additional criteria will be negotiated. Any such criteria will ensure that Blue Box payments are less trade-distorting than AMS measures, it being understood that:

- Any new criteria would need to take account of the balance of WTO rights and obligations.
- Any new criteria to be agreed will not have the perverse effect of undoing ongoing reforms.

15. Blue Box support will not exceed 5% of a Member's average total value of agricultural production during an historical period. The historical period will be established in the negotiations. This ceiling will apply to any actual or potential Blue Box user from the beginning of the implementation period. In cases where a Member has placed an exceptionally large percentage of its trade-

EXPORT COMPETITION

17. The Doha Ministerial Declaration calls for "reduction of, with a view to phasing out, all forms of export subsidies"

23. Developing countries will continue to benefit from special and differential treatment under the provisions of Article 9.4 of the Agreement on Agriculture for a reasonable period, to be negotiated, after the phasing out of all forms of export subsidies and implementation of all disciplines identified above are completed.

24. Members will ensure that the disciplines on export credits, export credit guarantees or insurance programs to be agreed will make appropriate provision for differential treatment in favour of least-developed and net food-importing developing countries as provided for in paragraph 4 of the Decision on Measures Concerning the Possible Negative Effects of the Reform Programme on Least-Developed and Net Food-Importing Developing Countries. Improved obligations for monitoring and surveillance of all new disciplines as foreshadowed in paragraph 48 will be critically important in this regard. Provisions to be agreed in this respect must not undermine the commitments undertaken by Members under the obligations in paragraph 18 above.

25. STEs in developing country Members which enjoy special privileges to preserve domestic consumer price stability and to ensure food security will receive special consideration for maintaining monopoly status.

Special Circumstances

26. In exceptional circumstances, which cannot be adequately covered by food aid, commercial export credits or preferential international financing facilities, ad hoc temporary financing arrangements relating to exports to developing countries may be agreed by Members. Such agreements must not have the effect of undermining commitments undertaken by Members in paragraph 18 above, and will be based on criteria and consultation procedures to be established.

MARKET ACCESS

27. The Doha Ministerial Declaration calls for "substantial improvements in market access". Members also agreed that special and differential treatment for developing Members would be an integral part of all elements in the negotiations.

The Single Approach: a Tiered Formula

28. To ensure that a single approach for developed and developing country Members meets all the objectives of the Doha mandate, tariff reductions will be made through a tiered formula that takes into account their different tariff structures.

29. To ensure that such a formula will lead to substantial trade expansion, the following principles will guide its further negotiation:

- Tariff reductions will be made from bound rates. Substantial overall tariff reductions will be achieved as a final result from negotiations.
- Each Member (other than LDCs) will make a contribution. Operationally effective special and differential provisions for developing country Members will be an integral part of all elements.

- Progressivity in tariff reductions will be achieved through deeper cuts in higher tariffs with flexibilities for sensitive products. Substantial improvements in market access will be achieved for all products.

30. The number of bands, the thresholds for defining the bands and the type of tariff reduction in each band remain under negotiation. The role of a tariff cap in a tiered formula with distinct treatment for sensitive products will be further evaluated.

Sensitive Products

Selection

31. Without undermining the overall objective of the tiered approach, Members may designate an appropriate number, to be negotiated, of tariff lines to be treated as sensitive, taking account of existing commitments for these products.

Treatment

32. The principle of 'substantial improvement' will apply to each product.

33. 'Substantial improvement' will be achieved through combinations of tariff quota commitments and tariff reductions applying to each product. However, balance in this negotiation will be found only if the final negotiated result also reflects the sensitivity of the product concerned.

34. Some MFN-based tariff quota expansion will be required for all such products (for ser. 73-0 TD-0.1479-1)

40. Proportionality will be achieved by requiring lesser tariff reduction commitments or tariff quota expansion commitments from developing country Members.

41. Developing country Members will have the flexibility to designate an appropriate number of products as Special Products, based on criteria of food security, livelihood security and rural development needs. These products will be eligible for more flexible treatment. The criteria and treatment of these products will be further specified during the negotiation phase and will recognize the fundamental importance of Special Products to developing countries.

42. A Special Safeguard Mechanism (SSM) will be established for use by developing country Members.

43. Full implementation of the long-standing commitment to achieve the fullest liberalisation of trade in tropical agricultural products and for products of particular importance to the diversification of production from the growing of illicit narcotic crops is overdue and will be addressed effectively in the market access negotiations.

44. The importance of long-standing preferences is fully recognised. The issue of preference erosion will be addressed. For the further consideration in this regard, paragraph 16 and other relevant provisions of TN/AG/W/1/Rev.1 will be used as a reference.

LEAST- DEVELOPED COUNTRIES

45. Least-Developed Countries, which will have full access to all special and differential treatment provisions above, are not required to undertake reduction commitments. Developed Members, and developing country Members in a position to do so, should provide duty-free and quota-free market access for products originating from least-developed countries.

46. Work on cotton under all the pillars will reflect the vital importance of this sector to certain LDC Members and we will work to achieve ambitious results expeditiously.

RECENTLY ACCEDED MEMBERS

47. The particular concerns of recently acceded Members will be effectively addressed through specific flexibility provisions.

MONITORING AND SURVEILLANCE

48. Article 8 of the Agreement on Agriculture will be amended with a view to enhancing monitoring so as to effectively ensure full transparency, including through timely and complete notifications with respect to the commitments in market access, domestic support and export competition. The particular concerns of developing countries in this regard will be addressed.

OTHER ISSUES

49. Issues of interest but not agreed: sectoral initiatives, differential export taxes, GIs.

50. Disciplines on export prohibitions and restrictions in Article 12.1 of the Agreement on Agriculture will be strengthened.

Annex B

Framework for Establishing Modalities in Market Access for Non-Agricultural Products

1. This Framework contains the initial elements for future work on modalities by the Negotiating Group on Market Access. Additional negotiations are required to reach agreement on the specifics of some of these elements. These relate to the formula, the issues concerning the treatment of unbound tariffs in indent two of paragraph 5, the flexibilities for developing-country participants, the issue of participation in the sectorial tariff component and the preferences. In order to finalize the modalities, the Negotiating Group is instructed to address these issues expeditiously in a manner consistent with the mandate of paragraph 16 of the Doha Ministerial Declaration and the overall balance therein.

2. We reaffirm that negotiations on market access for non-agricultural products shall aim to reduce or as appropriate eliminate tariffs, including the reduction or elimination of tariff peaks, high tariffs, and tariff escalation, as well as non-tariff barriers, in particular on products of export interest to developing countries. We also reaffirm the importance of special and differential treatment and less than full reciprocity in reduction commitments as integral parts of the modalities.

3. We acknowledge the substantial work undertaken by the Negotiating Group on Market Access and the progress towards achieving an agreement on negotiating modalities. We take note of the constructive dialogue on the Chair's Draft Elements of Modalities (TN/MA/W/35/Rev.1) and confirm our intention to use this document as a reference for the future work of the Negotiating Group. We instruct the Negotiating Group to continue its work, as mandated by paragraph 16 of the Doha Ministerial Declaration with its corresponding references to the relevant provisions of Article XXVIII *bis* of GATT 1994 and to the provisions cited in paragraph 50 of the Doha Ministerial Declaration, on the basis set out below.

4. We recognize that a formula approach is key to reducing tariffs, and reducing or eliminating tariff peaks, high tariffs, and tariff escalation. We agree that the Negotiating Group should continue its work on a non-linear formula applied on a line-by-line basis which shall take fully into account the special needs and interests of developing and least-developed country participants, including through less than full reciprocity in reduction commitments.

5. We further agree on the following elements regarding the formula:

- product coverage shall be comprehensive without *a priori* exclusions;
- tariff reductions or elimination shall commence from the bound rates after full implementation of current concessions; however, for unbound tariff lines, the basis for commencing the tariff reductions shall be [two] times the MFN applied rate in the base year;
- the base year for MFN applied tariff rates shall be 2001 (applicable rates on 14 November);
- credit shall be given for autonomous liberalization by developing countries provided that the tariff lines were bound on an MFN basis in the WTO since the conclusion of the Uruguay Round;

all non-*ad valorem* duties shall be converted to *ad valorem* equivalents on the Uruguay Round in the

-

categorization, and ultimately negotiations on NTBs. We take note that the modalities for addressing NTBs in these negotiations could include request/offer, horizontal, or vertical approaches; and should fully take into account the principle of special and differential treatment for developing and least-developed country participants.

15. We recognize that appropriate studies and capacity building measures shall be an integral part of the modalities to be agreed. We also recognize the work that has already been undertaken in these areas and ask participants to continue to identify such issues to improve participation in the negotiations.

16. We recognize the challenges that may be faced by non-reciprocal preference beneficiary Members and those Members that are at present highly dependent on tariff revenue as a result of these negotiations on non-agricultural products. We instruct the Negotiating Group to take into consideration, in the course of its work, the particular needs that may arise for the Members concerned.

17. We furthermore encourage the Negotiating Group to work closely with the Committee on Trade and Environment in Special Session with a view to addressing the issue of non-agricultural environmental goods covered in paragraph 31 (iii) of the Doha Ministerial Declaration.

Annex C

Recommendations of the Special Session of the Council for Trade in Services

- (a) Members who have not yet submitted their initial offers must do so as soon as possible.
- (b) A date for the submission of a round of revised offers should be established as soon as feasible.
- (c) With a view to providing effective market access to all Members and in order to ensure a substantive outcome, Members shall strive to ensure a high quality of offers, particularly in sectors and modes of supply of export interest to developing countries, with special attention to be given to least-developed countries.
- (d) Members shall aim to achieve progressively higher levels of liberalization with no a priori exclusion of any service sector or mode of supply and shall give special attention to sectors and modes of supply of export interest to developing countries. Members note the interest of developing countries, as well as other Members, in Mode 4.
- (e) Members must intensify their efforts to conclude the negotiations on rule-making under GATS Articles VI:4, X, XIII and XV in accordance with their respective mandates and deadlines.
- (f) Targeted technical assistance should be provided with a view to enabling developing countries to participate effectively in the negotiations.
- (g) For the purpose of the Sixth Ministerial meeting, the Special Session of the Council for Trade in Services shall review progress in these negotiations and provide a full report to the Trade Negotiations Committee, including possible recommendations.

Annex D

Modalities for Negotiations on Trade Facilitation

1. Negotiations shall aim to clarify and improve relevant aspects of Articles V, VIII and X of the GATT 1994 with a view to further expediting the movement, release and clearance of goods, including goods in transit.¹ Negotiations shall also aim at enhancing technical assistance and support for capacity building in this area. The negotiations shall further aim at provisions for effective cooperation between customs or any other appropriate authorities on trade facilitation and customs compliance issues.
2. The results of the negotiations shall take fully into account the principle of special and differential treatment for developing and least-developed countries.
