

V. Findings and Conclusions

95.

97. The Panel recommended, in paragraph 5.5 of the Panel Report, that the United States bring its measures, found to be inconsistent with the *SCM Agreement* and the GATT 1994, into conformity with its obligations under those Agreements. Having found that the Panel acted within the scope of its jurisdiction in making such findings of inconsistency, it is not for us to make any additional recommendation, under Article 19.1 of the DSU.
